

IMPACT OF THE INDUSTRIAL REVOLUTION

Directions: As Industrial Revolution progressed, it had a massive impact on almost every aspect of society. In many ways, it improved society and made people's lives easier. However, it also had negative impacts in many areas as well. For each of the effects listed below, **determine** if it was positive or negative and list it on the graphic organizer. Then **explain why** it is positive or negative under the flap.

Population increase
Increased standard of living
Improved transportation
Urbanization

Environmental pollution
Increased education
Poor working conditions
Better medical care

Growth of the middle class
Growth of labor unions

POSITIVE
